

Project PRR C21-i07.01
**“Technical studies for
offshore energy potential”**

Preliminary Site Characterisation
for Windfarm Development

List of Appendices

All Volumes

31 August 2026

The appendices listed below are provided as separate documents accompanying this report and are available on request to seislab.owf@ipma.pt

VOLUME II. VIANA DO CASTELO

Desktop studies

Appendix II-A. Terms of Reference for geophysical, geotechnical and environmental characterization of proposed areas for offshore renewable energy installations

Appendix II-B. Geological information for the support of offshore wind farm development on the west Portuguese continental shelf – Viana do Castelo

Appendix II-C. Persistency analysis for four locations offshore Portugal

Appendix II-D. Historical and archaeological study of areas proposed for offshore wind farm development. Bibliographic research report – Viana do Castelo, Leixões, Figueira da Foz –

Appendix II-E. Overview, standards and recommendations for the foundations of offshore wind turbines. Geotechnical consultancy report

2024 Exploratory surveys

Appendix II-F. Hydrographic survey offshore Viana do Castelo

Appendix II-G. Hydrographic survey and seabed remote classification offshore Viana do Castelo

VOLUME III. LEIXÕES

Desktop studies

Appendix III-A. Terms of Reference for geophysical, geotechnical and environmental characterization of proposed areas for offshore renewable energy installations

Appendix III-B. Geological information for the support of offshore wind farm development on the west Portuguese continental shelf – Leixões

Appendix III-C. Persistency analysis for four locations offshore Portugal

Appendix III-D. Historical and archaeological study of areas proposed for offshore wind farm development. Bibliographic research report – Viana do Castelo, Leixões, Figueira da Foz –

Appendix III-E. Overview, standards and recommendations for the foundations of offshore wind turbines. Geotechnical consultancy report

2024 Exploratory surveys

Appendix III-F. Hydrographic survey offshore Leixões

Appendix III-G. Hydrographic survey and seabed remote classification offshore Leixões

Appendix III-H. Geophysical Survey Mobilisation & Operations Report

Appendix III-I. 2D M-UHRS & 2D SBP Geophysical Data Processing, Leixões Area

Appendix III-J. Geophysical Surveys – Leixões Interpretation Report

2025 Site surveys

Appendix III-K. Geophysical Scope – Acquisition and Operations Report, Leixões

Appendix III-L. Geophysical Scope – Field Report, Leixões

Appendix III-M. Geophysical Scope – Marine Mammal Mitigation Report, Leixões

Appendix III-N. Geophysical Scope – UHRS Processing Report, Leixões

Appendix III-O. Geophysical Scope – Interpretative Survey Report (Shallow), Leixões

Appendix III-P. Geophysical Scope – Interpretative Survey Report (Deep), Leixões

Appendix III-Q. Geotechnical Scope – Acquisitions and Operations Report (VC & CPT) , Leixões

Appendix III-R. Geotechnical Scope – Geotechnical Field Report Volume 01, Leixões

Appendix III-S. Geotechnical Scope – Geotechnical Factual Report Volume 02, Leixões

Appendix III-T. Environmental Scope – Environmental Baseline Report, Leixões

Appendix III-U. Imaging and physical properties analysis of vibrocores & Grain size and elemental analysis of vibrocores

Appendix III-V. Imaging analysis of vibrocores – LNEC & Duplicates and Rejected

Appendix III-W. ²¹⁰Pb and AMS ¹⁴C analysis of push and vibrocores

Appendix III-X. Laboratory test results and geotechnical interpretation of laboratory and piezocone tests data

2026 Site survey

Appendix III-Y. Geophysical Scope – Marine Mammal Mitigation Report, Leixões

Appendix III-Z. Geophysical Scope – Acquisitions and Operations Report, Leixões

Appendix III -AA. Geophysical Scope – Deliverables Report, Leixões

VOLUME IV. FIGUEIRA DA FOZ

Desktop studies

Appendix IV-A. Terms of Reference for geophysical, geotechnical and environmental characterization of proposed areas for offshore renewable energy installations

Appendix IV-B. Geological information for the support of offshore wind farm development on the west Portuguese continental shelf – Figueira da Foz

Appendix IV-C. Persistency analysis for four locations offshore Portugal

Appendix IV-D. Historical and archaeological study of areas proposed for offshore wind farm development. Bibliographic research report – Viana do Castelo, Leixões, Figueira da Foz –

Appendix IV-E. Overview, standards and recommendations for the foundations of offshore wind turbines. Geotechnical consultancy report

2024 Exploratory surveys

Appendix IV-F. Hydrographic survey offshore Figueira da Foz

Appendix IV-G. Hydrographic survey and seabed remote classification offshore Figueira da Foz

Appendix IV-H. Geophysical Survey Mobilisation & Operations Report

Appendix IV-I. 2D M-UHRS & 2D SBP Geophysical Data Processing, Figueira da Foz Area

Appendix IV-J. Geophysical Surveys – Figueira da Foz Interpretation Report

2025 Site surveys

Appendix IV-K. Geophysical Scope – Acquisition and Operations Report, Figueira da Foz

Appendix IV-L. Geophysical Scope – Field Report, Figueira da Foz

Appendix IV-M. Geophysical Scope – Marine Mammal Mitigation Report, Figueira da Foz

Appendix IV-N. Geophysical Scope – UHRS Processing Report, Figueira da Foz

Appendix IV-O. Geophysical Scope – Interpretative Survey Report (Shallow), Figueira da Foz

Appendix IV-P. Geophysical Scope – Interpretative Survey Report (Deep, Figueira da Foz)

Appendix IV-Q. Geotechnical Scope – Acquisitions and Operations Report (VC & CPT), Figueira da Foz

Appendix IV-R. Geotechnical Scope – Geotechnical Field Report Volume 01, Figueira da Foz

Appendix IV-S. Geotechnical Scope – Geotechnical Factual Report Volume 02, Figueira da Foz

Appendix IV-T. Environmental Scope – Environmental Baseline Report, Figueira da Foz

Appendix IV-U. Imaging and physical properties analysis of vibro-cores & Grain size and elemental analysis of vibrocores

Appendix IV-V. Imaging analysis of vibrocores – LNEC & Duplicates and Rejected

Appendix IV-W. ²¹⁰Pb and AMS ¹⁴C analysis of push and vibrocores

Appendix IV-X. Laboratory test results and geotechnical interpretation of laboratory and piezocone tests data

VOLUME V. ENVIRONMENTAL REPORT

Appendix 2.1.A. Assessment of abiotic environmental conditions for the establishment of a contamination baseline in designated offshore renewable energy development areas. Aquisição de serviços para estudo das condições ambientais abióticas para estabelecimento do referencial de contaminação na zona de implementação das energias renováveis

Appendix 3.1.A. Supplementary Figures for Section 3.1. Characterisation of the Horizontal Structure of the Wind Field

Appendix 3.2.A. Supplementary Figures for Section 3.2. High-Resolution Simulations with the CROCO Regional Ocean Model

Appendix 3.2.B. Integrated Assessment of Atmospheric and Oceanic Effects of Offshore Wind Farms

Appendix 3.3.A. Supplementary Figures for Section 3.3. Larval Dispersal Simulations

Appendix 4.2.A. Supplementary Figures for Section 4.2. Phytoplankton and Microzooplankton communities

Appendix 4.3.A. Supplementary Figures for Section 4.3. Zooplankton Communities

Appendix 4.4.A. Complete dataset of phytoplankton taxa identified. Molecular characterisation of phytoplankton and zooplankton communities

Appendix 4.4.B. Complete dataset of zooplankton taxa identified. Molecular characterisation of phytoplankton and zooplankton communities

Appendix 5.2.A. Supplementary Table to Section 5.2

Appendix 5.4.A. List of Vulnerable Marine Ecosystems (VME) indicators

Appendix 5.4.B. List of records in the Bay of Biscay and Iberian Waters (VME)

Appendix 5.5.A. Hauls and sectors maps

Appendix 5.5.B. Functional traits compilation

Appendix 5.5.C. Selected diversity indices

Appendix 5.5.D. Species distribution models prediction maps

Appendix 5.5.E. Alpha and Beta diversity indices

Appendix 5.5.F. Community weighted means and proportions

Appendix 5.5.G. Species frequency of occurrence and contributions to beta diversity

Appendix 5.6.A. Abundance, distribution patterns, biology, and biodiversity indicators of pelagic species

Appendix 5.7.A. Distribution, abundance and migration patterns of large pelagic species

Appendix 5.8.A. Abundance, distribution, migratory flow and biodiversity of seabirds

Appendix 5.9.A. Distribution, abundance and biodiversity of marine mammals and marine reptiles

Appendix 6.1.A. Exploratory analysis of the purse seine fishing activity within proposed windfarm zones, January 2018 to June 2024

Appendix 6.1.B. Supplementary Figures for Section 6.1. Large pelagic fisheries

Appendix 6.2.A. STATSOFFSHORE Final Report

Appendix 7.1.A. Conceptual Framework for the Sequential Integration of Multidisciplinary Datasets across Work Packages

Appendix 7.1.B. Metadata Catalogue of Integrated Datasets and Access URLs (WE ARE ATLANTIC Platform)
